

NECKY KAYAKS

Vector 14™

Traditionally most sit-on-tops are designed to be extremely stable. To do this, designers must add width and make sure the characteristics of the hull react accordingly to ensure a high level of initial stability. The Vector 14 isn't your "traditional" sit-on-top. This kayak was designed to push the performance envelope. While the secondary stability is high, the initial stability allows paddlers to lean turn or sit it up on edge with ease. In fact, the design premise of the Vector 14 was to make sure the hull performs very similar to our high end sea kayaks. This unique kayak will take sit-on-top kayaking to a whole new level.

FEATURES

- Touring Seat
- Quick Seal Front and Rear Hatches
- Storage Pouch
- Scupper Valves
- Fitted Rudder
- Large Tank Well With Cover
- Water Bottle Holder
- Carry Handles

LENGTH: 4.3m

WIDTH: 0.63m

WEIGHT: 28.6kg

CAPACITY: 136kg

CONSTRUCTION: Polyethylene

COLOURS:
